MY NUMBER ONE TIP
for anyone who’s interested in accounting is: just know that it’s attainable. Don’t doubt yourself. If the numbers are intimidating you—don’t let them. It’s about being able to look at something, understand a problem and figure out the best way to address it. That’s what accounting is. Having the CPA designation just gives people more confidence that you’re a critical thinker and you’re a problem solver.

**CPA EXAM PREP**

Sitting for the CPA Exam requires a significant investment of time. It’s important to develop a strategy to sit for and pass the CPA Exam. One tool candidates use is a CPA Exam Review course. With dozens of options available, how do you pick?

**Best Learning Method**

It’s important to be realistic about your study habits. If you like lectures and want to interact with an instructor, a live course may suit you better. Other candidates prefer the flexibility of self-study/online courses.

**Cost**

Each review course has a different fee and many offer discounts or have discounts with employers. However, cost shouldn’t be the only factor when deciding on a review course.

**Questions to Ask Review Course Providers**

- Does the review course provide updated study materials as the Exam evolves?
- How long do you get access to the study materials?
- What is the review course structure?
- What is the CPA Exam pass rate of students who have taken the course?
- Can you preview the course before purchasing?
- Is there an instructor or teacher available if you have questions about the content?
- Are you limited to one format or can you have the flexibility of combining online and live courses?

**Review Courses**

INCPAS members have access to several discounted Exam review courses:

- Becker ($300 discount)
- Gleim (20% discount)
- UWorld Roger (20% discount on review course or 15% discount off everything in your cart)
- Surgent (35% discount)
- Yaeger (20% discount)

For details contact Sarah Townsend at stownsend@incpas.org or (317) 726-5011.
TAKING THE CPA EXAM

The computer-based Exam has four sections you must pass.
• You take each section one at a time and must pass all four within 18 months.
• The 18 months doesn’t start until you sit for your first Exam.

Auditing and Attestation (AUD)
The entire audit process, other services including compilations, reviews and attestation engagements, and the AICPA Code of Professional Conduct.

Business Environment and Concepts (BEC)
Operations and strategic management, economics, financial management and information technology.

Financial Accounting and Reporting (FAR)
Concepts and standards for financial statements, typical items in financial statements, specific types of transactions and events, accounting and reporting for governmental entities, and accounting and reporting for nongovernmental and not-for-profit organizations.

Regulation (REG)
Federal taxation and business law, including ethics and professional responsibilities.

New! Continuous Testing
Under the new Continuous Testing model, candidates will have the ability to take the Exam year-round, without restriction, other than waiting to receive scores from prior attempts of the same section or when there is a major change to the Exam. Continuous Testing will replace the existing CPA Exam Testing Window model, which only permitted candidates to test during designated time frames each calendar quarter.

Resources:
aicpa.org/BecomeACPA/CPAExam
In 2017, the Exam evolved to reflect the needs of the profession and focus on the knowledge and skills required of newly licensed CPAs.

- Shift from Memorization to Critical Thinking (greater assessment on higher order skills including critical thinking, analytical ability, communication skills, problem solving, professional skepticism)
- There are still four Exam sections: Auditing & Attestation (AUD), Business Environment and Concepts (BEC), Financial Accounting and Reporting (FAR) and Regulation (REG)
- Less multiple choice questions and more task-based simulations (TSB were added to BEC for the first time)
- Increased testing time (16 hours – 4hrs/Exam) and a new 15-minute break midway through each section that doesn’t count against testing time.
- In-depth Exam blueprints replaced the former content and skill specification outlines to provide better clarity on what will be tested
- The price of the Exam increased (due to the increase in testing time)

HELPFUL HINTS FROM A RECRUITER

Before the Job Search
- Have an experienced professional check your resume for content.
- Have a good proofreader check your resume for spelling and grammar.
- Make sure to get a professional outfit you’re comfortable in.
- Google yourself—is there anything out there you wouldn’t want a prospective employer to see? Start adjusting your privacy settings, untagging photos and deleting now.

Career Fairs
- Don’t feel like you have to talk to the main recruiter—talk with any of the team members there.
- Give a firm handshake and make eye contact (practice this!).
- Greet the organization and take a minute to chit-chat before diving into your one-minute elevator speech.
- Don’t linger. When the conversation comes to an end, thank the recruiter for their time and move on.

Interviews
- Arrive early and definitely don’t be late. The night before, figure out exactly where you are going and where you will park.
- Give a firm handshake.
- Be nice and act interested.
- Know the name and background of the firm/company you’re interviewing with.
- Always have 2–3 good questions to ask the interviewer.
- It’s okay to ask what the next steps are in the process (when you can expect to hear back, how many positions are they looking to fill, etc.).
- Turn your cell phone off (don’t have it on vibrate, either).
- Avoid slang.

Why a New Grad Should Begin Their Career at Our Organization
A Future with Monroe Shine: V.G. Monroe felt that to be successful in the public accounting profession, a person needs more than a college degree with a major in accounting. There are personal characteristics just as important as technical skills. In his autobiography, he listed those characteristics as: good judgment, ability to communicate with clients, ability to acquire the confidence and respect of clients, dedication and hard work. Monroe Shine uses Mr. Monroe’s standards as the benchmark for hiring employees. We look for those who are interested in a career, not just a job. We encourage all employees to be involved in local organizations and give back to the community. The Shareholders at Monroe Shine not only lead by example, but they are always ready to help employees find and develop involvement opportunities. We attribute our low employee turnover to these mentoring relationships.

Additional Information
At Monroe Shine, our interns and new staff get the opportunity to work on both tax and audit. This is a great learning opportunity, as it allows them to gain insight into both career paths.
